We would like to thank you for your interest in Montage Galleries and we look forward to doing business with you.

I would like to start out by addressing the quality of our products & services. All of our furniture is built in Hickory, North Carolina by qualified craftspeople and every material used to manufacture our furnishings are of the highest quality. We incorporate our Solid-Side system in most of our frames, which virtually eliminated furniture racking, and it makes the frames stronger & less likely to break down under heavy usage. We use contract-grade latex webbing instead of the traditional continuous-loop springs that break down over time. The foam we use is top-quality and the entire frame is wrapped in dacron fiber to ensure even upholstery. Each piece of furniture is tested for quality construction, comfort and is shrink-wrapped before leaving our plant.

Most, if not all, of our furniture can be customized to your specifications. Some of the most common options are two-toned upholstery, chair skirts, wheel casters, height adjustments, and custom matched wood finishes. We can also create custom furniture that is not in our line; all we need is a photo or sketch of your design. With our designers and engineers, we can create just about any thing you are looking for whether it's in our line or not.

We work on a 50/50 basis, which means that we require 50% of an order up-front and the remaining balance before shipment. At this time we only accept checks and money orders payable to CSI-Montage Galleries. We ship via UPS, FedEx Freight, Overnight, Averitt and a multitude of other qualified carriers to ensure that your furniture gets to where it needs to be free of damage.

If you have any questions please feel free to contact us.

Thank you,

Dustin Woody / Montage Galleries

## Dealer Programs

# Custom Furniture

Montage Galleries' main niche in the furniture industry is our ability to make custom furniture. We can alter just about any of our frames to meet your needs or we can produce an entirely new piece of furniture from nothing more than a sketch on a napkin.

What does this mean for your our your company? - You can offer clients the ability to have a one-of-a-kind design that no one else has or your can also design a furniture line to sell exclusively from your store of design firm. Also, our lead times are one of the shortest in the industry with 4-6 weeks for furniture we have in our line, and designs that requires pattern work.
